Web developer with over 4 years of experience creating intuitive and high-performance interfaces. I have a degree in Systems Analysis and Development from Fatec de São José dos Campos and continue to study the best in the market. My main expertise lies in front-end development with JavaScript, React.js, and TypeScript, in addition to working as a UI Designer whenever necessary, using tools like Figma to create user-centric solutions. I also have experience in back-end projects, always striving to expand my knowledge and deliver end-to-end value.

Experience:

Better Tech - Senior Front-end Developer

Jan 2025 - Present

Description: Developing web interfaces for educational solutions, from prototyping to final product delivery. Responsible for creating screens, defining workflows, and integrating with the back-end in partnership with product designers and developers. Extensive experience in projects from scratch to deployment, focusing on usability, performance, and scalability. Development and continuous evolution of class management systems and payment checkout modules.

Technologies: n8n, Cursor AI, React JS, Typescript, Javascript, Storybook, Tailwind, Next JS, Git, Github, and Figma.

Intrabank (FIDC / Asset Management) - Mid-Level / Senior Front-end Developer | UI Designer

Jul 2023 - Dec 2024.

Description: Lead developer responsible for the company's front-end, serving as technical leader and mentoring newer developers within the development squad. Creating, developing, and maintaining internal systems for the Commercial, Compliance, and Credit departments, from prototyping to final delivery. Responsible for creating interfaces focused on usability, performance, and visual standardization, contributing to application consistency and scalability.

Technologies: React JS, Typescript, Javascript, Styled-components, Tailwind, Vite, Next JS, Git, Github, and Figma.

Freelancer - Full-stack Developer | UI Designer

May 2023 - July 2023.

Description: Developing complete web applications for outsourced projects and personal initiatives. Responsible for all stages of the process—from design and prototyping to implementation and deployment in production. Creating modern, responsive, and performance-optimized interfaces, integrating front-end and back-end solutions with a focus on efficiency and user experience. Technologies: React JS, React Native, Next JS, Node JS, Typescript, Tailwind, Styled-components, Vercel, Netlify, Vite, Git, Github, and Figma.

Softexpert - Front-end Developer

November 2022 - May 2023.

Description: Develops and maintains features in the Workspace area of the company's main product, which is present in over 50 countries. Responsible for implementing new features, fixing bugs, and continuously improving the interface. Participates in agile teams using Scrum methodology, collaborating with multidisciplinary teams to ensure efficient and high-quality deliveries. Runs unit tests with Jest and documents components with Storybook, ensuring product consistency, performance, and scalability. Technologies: React JS, Javascript, CSS, JQuery, Jest, Storybook, Git, and Gitlab.

Ensinio - Junior / Mid-Level Front-End Developer

April 2021 - November 2022.

Description: Develops various web systems and interfaces, including a white-label platform for selling digital content, landing pages, and core system modules.

Responsible for implementing new features and maintaining legacy systems, as well as gradually migrating to more modern technologies such as React and Next.js.

Participates in agile squads using Scrum methodologies, actively collaborating with designers, product owners, and the back-end team to ensure continuous, high-quality deliveries. Progression from Junior to Mid-Level Developer, reflecting technical growth and delivery autonomy.

Technologies: React JS, Next JS, Typescript, Javascript, Styled-Components, Redux, Figma, Git, Gitbucket, and Github.

SuperGeeks - Programming Instructor

February 2019 - January 2021.

Description: Responsible for teaching programming and robotics to children and adolescents, focusing on programming logic, computational thinking, and software development fundamentals. Creates digital content and oversees practical projects, guiding students in building games, applications, and simple systems.

Expertise in different languages and platforms, encouraging students' creativity and logical reasoning.

Technologies: Python, Javascript, C++, HTML, CSS, Scratch, Arduino, Kodular, Corel, Draw, Unity e Unreal.

Alorean - Freelance Hardware Designer, Video Editor

January 2020 - January 2021.

Description: Worked as an outsourced service provider for various companies, performing hardware maintenance, creating graphic materials, and editing institutional and promotional videos. Responsible for developing visual identities, optimizing equipment, and producing high-quality audiovisual content, combining technique and creativity in each project.

Technologies: Figma, Corel Draw, Hardware, Adobe Premiere, and Photoshop.

Iraci Veiga Educational Institute - Apprentice

November 2016 - December 2017.

Description: Worked in supporting the digital marketing sector, contributing to the creation of graphic content and technical support for IT maintenance. Responsible for producing visual materials and supporting internal equipment and systems, combining creative and technological skills in the educational environment. Technologies: HTML, CSS, Corel Draw, Adobe Photoshop, and Hardware

Education:

MBA in Full-Stack Development (Postgraduate)

Rocketseat | Oct/2024 - Jan/2025

Technologist in Systems Analysis and Development (Higher Education)

FATEC São José dos Campos | Completed: Aug/2022

Computer Network Technician

ETEC Jacareí | Completed: 2019

High School

EE Profª Amância Dias Sampaio | Completed: 2017

Additional Courses:

PC Hardware and Software, Cisco IT Essentials, in 2019

Advanced English (Conversational), Instituto Federal de São Paulo, in 2018

Advanced Computer Science, Instituto Educacional Iraci Veiga, in 2017

Professional Computer Science, Instituto Educacional Iraci Veiga, in 2016

Additional Information:

Languages: Advanced English
